SUMMARY

Industrial Design graduate with experience in product visualization, UX/UI design, and digital product development. Built material discovery platforms, visualization systems, and customer-facing design solutions across design, retail, and event industries.

EDUCATION

Bachelor of Industrial Design | Vellore Institute of Technology, Vellore *2022 - 2026*

SKILLS

Design: Product Design, UX/UI Design, Graphic Design, Branding
Visualization: Product Visualization, 3D Modeling, Rendering, Photo Manipulation
Software: Photoshop, Illustrator, Blender, Figma, CorelDRAW, Premiere Pro, After Effects
Technical: Python Automation, Workflow Optimization

EXPERIENCE

Product Design Intern | Rapido, Bengaluru *Aug 2026 - Present*

- Just joined the product design team. Details to come.

Industrial Designer | Sangeeth Samuel Design, Bengaluru *Jun 2026 - Aug 2026*

- Creative director for premium custom trophies, from concept to print-ready files for laser cutting and 3D printing.
- Designed trophies for the Red Bull Vallam Vali race and a memento for Magnus Carlsen at a Tech Mahindra event.
- Delivered branding for clients including rally racer Dhruva Chandrashekhar and RX Owners Club.

Product Visualization & Design Intern | Material Depot, Bengaluru *Feb 2026 - Jun 2026*

- Designed product visualization mockups and explanatory graphics for materialdepot.in, translating material specs into clear, customer-facing visuals.
- Directed visual design for 8ft x 4ft in-store display boards, unifying digital and physical brand presentation across experience centers.
- Automated recurring design tasks across Photoshop, Illustrator, and CorelDRAW with Python, cutting manual production time on high-volume catalog work.
- Redesigned the vendor asset and print production workflow, improving consistency across catalog visualization and marketing outputs.

Graphic Designer Intern | Prime Events and Conferences, Bengaluru *Nov 2025 - Feb 2026*

- Designed 3D exhibition mockups in Blender, visualizing spatial layouts for expo booths ahead of fabrication and client sign-off.
- Rebuilt the social media presence for a wildlife and adventure magazine through a cohesive visual system.
- Produced event collateral - banners, posters, archways - and directed layout and visual direction for magazine production.
- Edited promotional videos for live LED displays and represented the company on-site at events.

Design Team Organizer | Gravitas Tech Fest, Vellore *Aug 2025 - Oct 2025*

- Led a 40-member design and media team, owning visual identity and branding execution across the festival.
- Partnered with cross-functional departments to keep design output aligned with each team's needs.

SELECTED PROJECTS

Materia - Interior Material Discovery Platform
Reimagined how people discover and specify surface materials for Indian homes. Designed the end-to-end UX/UI - swipe-based discovery, camera-based visual search, and a vendor portal with live inventory - and built it as a high-fidelity React prototype connecting a fragmented offline industry into one digital product. Developed reusable UI components and interaction patterns to maintain consistency across the platform.

Exhibition Booth & Spatial Design - Prime Events and Conferences
Designed 3D concept mockups for expo booths, working from brand brief to fabrication-ready spatial layout. Balanced visual impact with material, structural, and budget constraints to turn 2D branding into a physical, walkable experience.

Binkli - Browser-Based Photo Editing Studio
Designed and built a scrapbook/zine-style image-editing web app combining real photo-texture assets (tape, die-cut stickers, torn paper) with a canvas-based filter engine (blur, halftone, polaroid, VHS, riso). Built with React, TypeScript, and Framer Motion; deployed live on Vercel.
